

## Locked Out - SKL Music 2023 ( Blues Shuffle )

V1

Locked out people but she don't want none of it  
Locked out again, and she don't give a ...  
Cold outside, turning me to ice  
Don't want no war so I'm playin real nice  
No fire in the trash  
Hands turning blue  
Knocking and knocking now  
Tell me girl whats wrong with you

V2

Neighbours on the street, shaking their heads  
Just wanted my Guitar, got her trouble instead  
Now the boys in blue  
Come screeching up the drive  
Yelling me on my knees  
Or we're going for a ride  
Never thought,  
it would ever come this  
Now I'm crying out her name  
With hand cuffs on my wrist

V3

This kind of trouble between a woman and man  
Travels way back to the dinosaur land  
I should of read the signs  
A long time ago  
This old fault line  
Was always bound to blow  
Like a frog on the boil  
I stayed too long  
I should of hopped out people  
Before it went so wrong
